PROJECTS

Video Generation Platform

May 2025 - Jul 2025

Role & Contributor: Frontend Developer

- **AI-powered video generation from text:** Implemented Text-to-Speech, image conversion, and automatic subtitles.
- **Developed UI:** Built interfaces for signup/login and video generator with responsive design.
- **Integrated APIs:** Connected backend services and video generation APIs for seamless functionality.
- **Tech Stack:** React.js, Tailwind CSS, MongoDB, Cloudinary, FFmpeg
- **Highlights:**
 - Automated script creation using OpenAI pipeline
 - AI-generated speech and images for video content
 - Video composition with synchronized audio & visuals
 - Performance analytics & social media publishing
 - Friendly, responsive, and visually consistent UI
- **Github:** github.com/Cong-Chau/GenerateVideo

Restaurant Management System

Nov 2024 - Dec 2024

Role & Contributor: Fullstack Developer

- **Built a fullstack restaurant management system:** Managed food ordering, table booking, menu, and revenue using the MVC pattern.
- **Secured user data:** Implemented encryption for sensitive information.
- **Streamlined order processing:** Developed backend logic and integrated frontend templates with Handlebars.
- **Enhanced UX:** Designed responsive UI with custom styles for better experience.
- **Tech Stack:** Node.js, Express.js, Handlebars, MySQL, REST API
- **Highlights:**
 - Fullstack system covering ordering, booking, menu & revenue management
 - Secure data handling with encryption
 - Responsive and user-friendly interface
 - Seamless backend-frontend integration
- **Github:** github.com/Cong-Chau/Restaurant

Portfolio Website

Sep 2025 - Oct 2025

Role & Contributor: Frontend Developer

- **Personal portfolio website:** Showcases skills and projects, bilingual English–Vietnamese, with smooth transitions.
- **Developed UI features:** Responsive layout and multilingual support.
- **Tech Stack:** React.js, Tailwind CSS
- **Highlights:**
 - Bilingual English–Vietnamese
 - Smooth transition effects
 - Fully responsive and interactive UI
- **Github:** github.com/Cong-Chau/portfolio-pcc
